MOBILE
PRINTER

Printek Mt3 Series Mobile Printer

Small, Ultralight, Durable, Bluetooth or 802.11b Capable

Three-Inch Mobile Thermal Receipt Printer

The Printek Mt3 is a robust, yet lightweight, three-inch mobile thermal printer. Expressly designed to meet your on-site, on-demand mobile printing requirements, the printer features a shock absorbing elastic housing for extra durability, easy paper loading and a rapid battery recharge system.

The Printek Mt3 can be used with most mobile computing platforms and form factors including ruggedized notebooks and pen-pads, handheld and Palm computers. When coupled with wireless enabled mobile computers, the Printek Mt3 is the perfect complement for "line-busting" and other point-of-service and point-of-sales applications.

The Ultimate in Printer Mobility

Easy to carry for an entire work shift — weighs only 23 ounces including paper and battery.

Cable-Free Connectivity

Bluetooth or 802.11b wireless connectivity are available for the Mt3 (Bluetooth is installed on the Mt3B model). Infrared (IrDA) is standard, as is RS-232 Serial Interface.

Streamlined Operation

Easy paper loading system — simply open the door and drop in the media. Prints over 800 6" receipts per battery charge.

Quick Battery Recharge

Internal circuit charges the battery in less than 2 hours.

Variety of Compatibility Choices

Graphics emulation mode and Windows 95, 98, 2000 and XP compatible; downloadable fonts and logos; Windows driver; prints from Windows CE, Pocket PC, and from Palm O/S hosts. Compatible with EPOC O/S and SIBO O/S.

MCR and Smart Card Reader Operations

Options include a three-track magnetic card reader that reads the new driver's license format and an integrated smart card reader.
